2. At the staff meeting this morning, Col. Baird suggested that the military personnel normally enrolled in UTG/A be enrolled in the IT/B course in the future. A review of the enrollment since 14 January indicates that there have been  civilians enrolled and  military. The present trend in enrollment in UTG/A is 60-70 per cent military. This would seem to indicate an enrollment of from  civilians every three weeks. If this is true, it would appear desirable to permit personnel to enroll weekly, and further promise to release them as soon as they are cleared.
